Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12 are drawn to a portable basketball goal assembly, classified in class 473, subclass 479.
 - II. Claims 13-31 are drawn to an anchoring assembly, classified in class 403, subclass 258.
 - III. Claims 32- 38 are drawn to a method of manufacturing an anchor assembly , classified in class 29, subclass 07.
 - IV. Claims 39-45 are drawn to a method of installing a portable basketball assembly, classified in class 473, subclass 415.
2. Inventions I, II, III, and IV are related as product, combination, sub-combination, and process of use or process of making. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product can be made in a different way or (3) the product as claimed can be used in a materially different process of using that product or the sub-combination can be used in a materially different way (MPEP § 806.05(h)). In the instant case,
 - 1) the anchoring assembly could be used to secure a portable volleyball net.
 - 2) the method of manufacturing the apparatus could be used with a standard sized support pole;

3) the method of use claimed could be used to secure one of two volleyball standards.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to R. Gilmore on 4/1/02 to request an election to the above restriction requirement, but did not result in an election being made. This paper is being mailed for review.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Chambers whose telephone number is 703-306-5516. The examiner can normally be reached on 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Sewell can be reached on 703-308-2126. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9302 for regular communications and 703-872-9303 for After Final communications.
